**Location** hyderabad, sindh  
**LinkedIn** [www.linkedin.com/in/ezeekelnizamani/](https://www.linkedin.com/in/ezeekelnizamani/)

## SKILLS

PHP HTML JavaScript SQL

Web Development CSS Laravel

Cascading Style Sheets (CSS) Git

Node.js Back-End Web Development

PHP Frameworks

Model-View-Controller (MVC) MySQLi

MySQL Linux mongodb

## PROJECTS

### Appointment Management system from php to node js Feb 2023 - Apr 2023

- Worked on node js understood php code then implemented in node js
- used EJS Template engine
- Created API tested with node js express js and mongo db tested using postman
- Deployed it on digital ocean on droplet using SSH Deployed it on digital ocean on droplet
- Use Git/GitHub for version control
- Documented code for other developers to understand code

## SUMMARY

To land a junior level job in the web development industry so that I can use my education to support the business's operations and learn more about the IT sector in order to realize my dream of becoming a full-stack developer.

## EDUCATION

**Diploma in Information Systems  
Management (DISM) : web development**  
Aptech

Apr 2021 - Apr 2022

## INTERNSHIP

**Backend developer**  
Arswebtech, remote

Dec 2022 - Present

Responsibilities:

- Assisted in the development and maintenance of backend functionalities for web applications using PHP and the Laravel framework.
- Collaborated with the development team to analyze project requirements and propose effective solutions.
- Worked on developing and integrating RESTful APIs with frontend components.
- Troubleshoot and debugged application issues to ensure smooth functionality.

Achievements:

- Successfully developed and implemented a robust user authentication system utilizing Laravel's built-in authentication features.
- Optimized database queries, resulting in a 30% improvement in application response time.
- Actively contributed to the development of a RESTful API, enabling seamless integration with frontend components.

Skills Utilized:

- PHP
- Laravel framework
- MySQL
- RESTful APIs
- Git version control
- Debugging and troubleshooting

**Key Takeaways:** During my internship as a Backend PHP Developer at Arswebtech, I gained valuable hands-on experience in developing web applications using PHP and the Laravel framework. I actively contributed to backend development tasks, collaborated effectively with the team, and acquired insights into industry best practices. This internship provided me with a strong foundation in backend development and enhanced my skills in PHP, Laravel, database management, and API integration.
